PERSONAL PROJECTS

Echoes of Wisdom (02/2026 - Present)

An interactive web application where users can engage in thoughtful debates and discussions with AI-powered historical figures, thinkers, and experts across various domains, including thinkers like Socrates, Alan Turing and Ruth Bader Ginsburg.

Arcana Mystica (02/2026 - Present)

Arcana Mystica is a modern, AI-powered Tarot reading web application that combines ancient mystical wisdom with cutting-edge technology. Built with react 19 and leverages Arcee AI's flagship Trinity Large model for natural language.

ScentWorld (12/2025 - Present)

ScentWorld is an immersive web application that transforms fragrance composition into a visual and narrative experience. By dragging and dropping scent notes into a perfume pyramid, users unlock vivid memory scenes that evolve dynamically with each addition.

CERTIFICATES

Digital Skills: User Experience by Accenture (06/2022)

Front End Development: HTML, by Great Learning (07/2022)

Front End Development: CSS, by Great Learning (02/2023)

Python Fundamentals, by Great Learning (04/2023)
